

{loadposition homeslideshow}

Serving the greater Durban area, north up to Ballito and down the Natal south coast to Pennington.

Royal Kitchens was established in 2003 and has grown tremendously due to our commitment to success, customer satisfaction and service delivery. All projects are owner and management inspected and supervised with emphasis on attention to detail.

The factory and showroom is situated in the upmarket Southgate Business Park, just off the N2 at Amanzimtoti.

Our speciality fields are kitchen, bedroom, and office design, manufacture and installation. Only materials of excellent quality and from reputable suppliers are used.

Design and planning is done with **computer aided design** packages, giving the customer the luxury to see the design and making alterations before the manufacturing process starts.

Cupboards and units are manufactured at our own manufacturing facility, giving us freedom in our designs and enabling us to **deliver to our customer the layout they desire.**
